Rue Henri Régnault, 92500 - Rueil-Malmaison, France | +33664002231 | omaligba@gmail.com | [LinkedIn](#)

Data Analyst with 3+ years of experience demonstrating expertise in identifying trends and insights from complex data sets, conducting market research, and developing data-driven reports and visualizations to support business decisions. Skilled in using industry-standard software such as Power BI, Tableau, Alteryx, Excel (PowerQuery and PowerPivot), Python, and SQL for data analysis, and interpretation. Holder of a French talent passport, certified Data Management Professional, and certified Project Management Associate. A recent graduate of the specialized master's program in Petroleum Data Management at IFP School, France. Highly analytical, results-driven, and consistently delivering high-quality work both independently and as part of a team.

Experience

MARCH 2023 – APRIL 2024

Energy Analyst | Kayros | Paris, France | www.kayros.com

Implemented Python, data labeling tools, and AWS S3 to analyze data and produce near real-time insights on drilling and fracking operations across seven U.S. oil and gas basins. Delivered benchmarking data for demand and supply, aiding Operators, Traders, and Financial Institutions in making data-driven decisions, resulting in a 25% profitability.

MARCH 2020 – AUGUST 2022

Service Manager | Sterling Bank Plc | Lagos, Nigeria | www.sterling.ng

Supervised a team of eight (8) customer service agents using T24 core banking application, Microsoft Power BI, Microsoft Excel, and Microsoft Automate to monitor, optimize, and deliver quality service to customers, resulting in a 25% reduction in response time by adhering to set KPIs. Also supervised the operation of six (6) Automated Teller Machines (ATMs), ensuring optimal uptime and achieving a 30% increase in annual turnover compared to the previous year. This achievement resulted in a swift promotion within a considerably short period.

JUNE 2016 – NOVEMBER 2016

Field Engineer Trainee | Masije Oil and Integrated Services Limited | Port Harcourt, Nigeria | www.masije.com

During my internship, I gained hands-on experience in oil and gas field operations, including contributing to 15+ toolbox meetings, maintaining and optimizing 15 wellheads, and performing pressure tests on over 20 valves. I documented tasks and collected data to enhance operational efficiency and safety, contributing to a 15% improvement in operational reliability.
